PURPOSE

The purpose of Surry Community College is to enable citizens of our area to increase their skills and knowledge. "To Each His Farthest Star" is an appropriate motto. Surry Community College will fulfill its purpose by:

—Providing, through open door admissions and within the statutory and fiscal limits, programs and instructions which will give each student the opportunity to state where he is and progress toward his occupational and educational objectives.

—Ensuring that when each student has successfully completed a program that he will have the skill and knowledge to meet the demands of the job for which he has prepared or to transfer and succeed at another institution.

—Providing social, cultural, and recreational activities to assist students in developing their leadership and social skills, their appreciation of aesthetic values, and a more productive use of their leisure time.

—Developing effective ways of evaluating college programs, to make adjustments as needed, and to make appropriate reports to the public.

—Encouraging and stimulating the innate desire for learning.

—Making Surry Community College a stimulating and rewarding place to work and study.

S#00-603

1988
SUE JARVIS
DISCUSSION

The 1987-88 **Lancer** is dedicated to Sue A. Jarvis for her commitment and service to the college and its students. Mrs. Jarvis received her B.S. degree in Business Education from ASU and her master's degree from UNC-Charlotte.

As a guidance counselor for college transfer students, Mrs. Jarvis spends many hours helping students prepare for a change in lifestyle.

At home, Mrs. Jarvis is a devoted wife and mother. She and her husband Kenneth have one daughter, Anne Marie.

Mrs. Jarvis is very active in community affairs as well. She is the chairman of Surry County Drug Awareness Committee and the newly elected president of the N.C. Community Counselors Association. She is also a Sunday school teacher. Her hobbies include reading, exercising, and experience.

It is a course on which

SCC PRESIDENT— RICHARDS DR. SWANSON

A graduate of Appalachian State Univeristy, and Florida State University, Dr. Swanson Richards has been president of Surry Community College for fifteen years. He served in numerous positions in the Surry County School System before coming to the college.

Dr. Richards sets a good example for the students through his leadership roles in several organizations within the county and state. His outstanding personality and services to the college distinguish him as an excellent president.

Seated (L-R): Charles Folger, Dr. Harris Bradley, Franklin Folger, Jerry Tuttle, 1986-87 SGA President, Oscar Smith, Jewel Jarrell, Eleanor Jones, Carolyn Comer, John Frank, Standing (L-R): Floyd Rees, chairman, and Bonnie Stuart. Not pictured is James Everett.

Below: Board members take a refreshment break.

Below: Building Committee considers bids for new building.

LIFE IS A BEACH

*Life is a beach—
Not just a playground,
But a vast source
Of wealth, of knowledge,
And of experience.
It is a course on which
One sets himself;
But one must take new direction:
To avoid the storms
Which weather all;
And to redirect
When his course is diverted.*

Left: SCC's famous banana tree.

Below: What's Myrtle Beach without a sunset?

Above right: Every dog has its day.

Above left: What girl wouldn't find excitement with these guys?

Left: And what would Myrtle Beach be without the Lancer?

EVENTS

SCC students give their all.

**SCC
Talent**

AUTUMN LEAVES

The second weekend in October is a traditional time for people of the North Carolina foothills. It is a celebration of the changing leaves and the togetherness of people. This three-day event was started in 1967 by the Mt. Airy Chamber of Commerce, but the original idea came from Dr. J. Dale Simmons. The Festival is a great success with 250,000 to 300,000 crowding Mr. Airy to view the arts and crafts, listen to entertainment, watch other people, and sample the available food. The 1987 celebration, held October 9-11, offered some of the finest memories of the year.

Arts and Crafts

Entertainment

Food

GRADUATION

AND

"The thrill of victory!"

"We aim to please."

"What a career."

"Hangin' Out!"

ORIENTATION

GALA HOLIDAY AFFAIRS

"So where's the bright lights, loud music, and dirty dancing?"

1987-88 VISITING ARTIST

Lea Beth Cram

Plainview, Texas, native Beth Cram is Surry Community College's visiting artist this year. The lyric soprano graduated from Baylor University and Western Carolina University.

She became interested in the visiting artist program while in graduate school at Western Carolina where she worked with two visiting artists, and decided to apply for acceptance to the NCVA program. This is Cram's second year as a visiting artist. Her first year was spent at Coastal Carolina in Jacksonville. Her career has included performances in master classes under such artists as Dalton Baldwin, Gwendolyn Koldovsky, Judith Raskin, and Benita Valente. Her opera performances include roles in "Cosi Fan Tutte," "The Crucible," "Falstaff," "The Telephone," and "Die Zauberflote." Her musical theater credits include "Godspell," "A Little Night Music," "Live A Little," "Mame," and "Snoopy."

"I like to think of myself as a versatile singer," said Cram. "I strive to bring a special 'life' to my music—respecting tradition and style, while making each piece a very personal creation."

Both of Beth's parents were musicians and, as a small girl, Cram had no desire to become a musician herself. It wasn't until high school that she changed her mind.

Beth has just finished a successful performance at the Andy Griffith Playhouse. She has also established a faculty chorus here at SCC; she said that the response has been tremendous.

Looking ahead to the future she said, "I would like to have some compositions published, to earn my doctorate in music, sing in Europe, to begin singing professionally, and to be teaching music."

Students

at Work and Play

"I know it's in here somewhere."

"Playing 'Quarters' again?"

"Yes, this is our regular table."

STUDENT

"Hit me with your best shot."

"Fire Away!!"

"Open Wide."

APPRECIATION

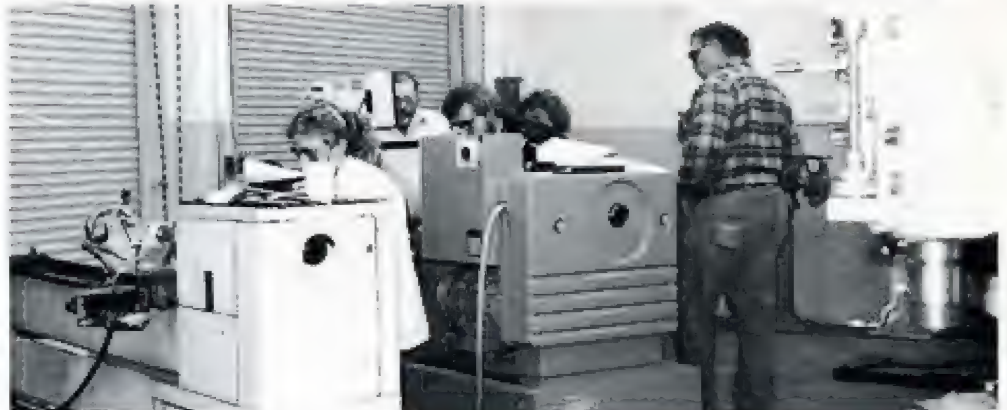

Rockin' at UNC-D.

"I'm sorry; I don't remember anything."

The pictures on this page were taken at the annual Alumni Association picnic at Cody Creek Park in August 1987.

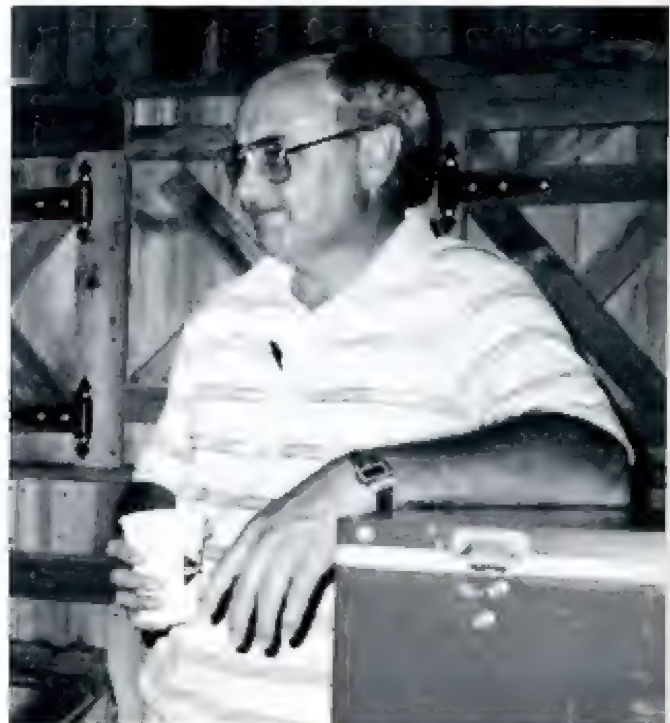

What a party!

"Yes, I wear my sunglasses at night."

"Well," says Dr. Shepherd, "isn't that special?"

Taking a Break!

Peek-a-boo? At your age, Mr. Yopp?

"Whose turn is it this week? Come on; let's have a volunteer."

"I'll get it. I still have a few good moves left."

Of course grandma's always have a few moments to spare.

CLOWN-AROUND TIME

"You'll never find it."

And she thought no one would notice.

"Gentlemen: I believe we have a dilemma."

"What would you say if I told you ... "

"I don't want to talk about it."

FOR SCC FACULTY

"I can't believe you think he's cute."

Would you buy a reindeer from this man?

The Trail of Happiness

"Why do I need a thermometer now? I'm retiring."

Could she be the next million-dollar winner?

STUDENTS!

STUDENTS?

The Good Things in SCC Life

Socializing ...

Snacking ...

and Soap Operas.

And the Necessities

Strong muscles,

Good teeth,

Mental capacity,

Working out,

and good study habits.

Go to class? Are you kidding—on a day like today?

You've got the look!

Oh, sure, just go ahead and make my day.

What are you looking at?

Darren's going places at SCC.

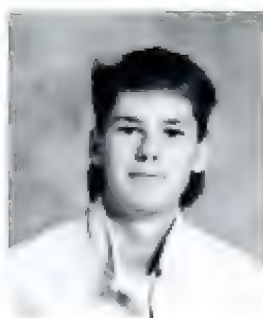

"Ah . . . But, when we were younger . . ."

Whop! Right in the ol' kisser!

The "Rap" Patrol

Laid back.

"Got a quarter?"

The Three Amigos

"Oh yeah? You think so, huh?"

Getting down on a cookie.

"I wish I had a doughnut."

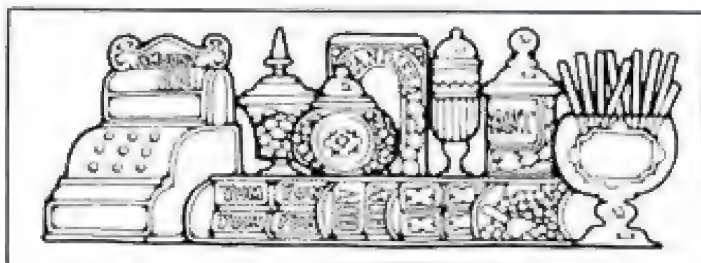

"Don't ask me to play it again."

Everybody Needs a Break Now and Then

Let's dig in!

I must be dreaming!

Say "Cheese!"

Who? Me?

Are you kidding?

All dressed up and nowhere to go.

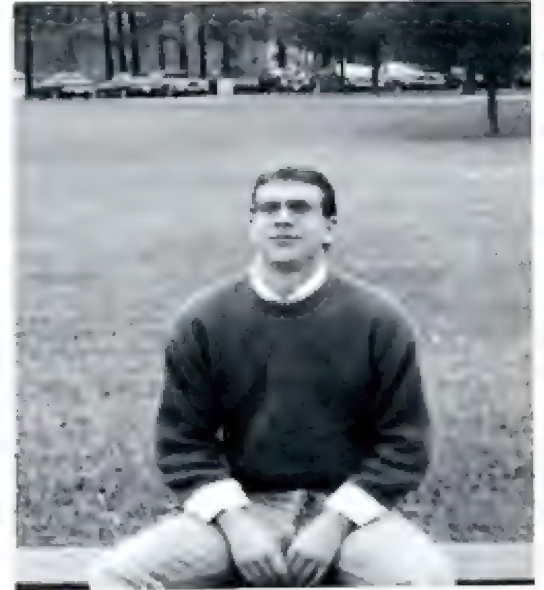

"Do you really think we'd lie to you?"

It's okay; we're just resting.

Interesting Students

Mitch Whitner

Mitch is LEO president, and has been an active member for two years. He is majoring in Criminal Justice and plans to attend Gardner Webb this fall. After finishing college he plans to be a member of the North Carolina Highway Patrol. He enjoys all sports, guns, and riding motorcycles.

with Special Talents

Wanda Bowman

Wanda is an artist, who has sold paintings in Atlanta, Georgia. She started painting in July 1986. She taught herself how to paint, but took 3 years of art (pencil drawing, charcoal, ink, and pastels). She paints wildlife, mountains, streams, and lakes. She enjoys water skiing, snow skiing, softball, volleyball, basketball, and hunting deer with a compound bow. She plans to transfer to Wake Forest and teach Earth Science at Surry Central.

Interesting Students

David Scales

David is an active member of the LEO Club. He is the correctional Seargent at Mocksville, and has also been appointed honor guard for the Department of Corrections this year. Also he is a Criminal Justice instructor and teaches unarmed self-defense. He enjoys fishing, flying, hiking, shooting, and swimming. He was also in the army for ten years serving as a MD and working in various fields from traffic investigations to undercover operations. He hopes to one day become an administrator of a prison.

with Special Talents

Mike Lawson

Michael is majoring in Electronics Engineering. He enjoys playing Rook, baseball, basketball, football, and going swimming. He loves music, especially hard rock, dance, and 60's and 70's music.

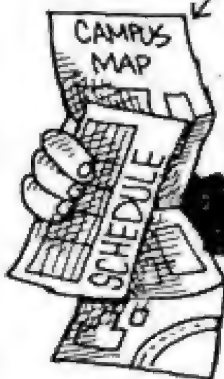

"And, of course, a date or two doesn't hurt in terms of survival."

ACTIVITIES AND

ORGANIZATIONS

Alpha-Omega and Phi Theta Kappa

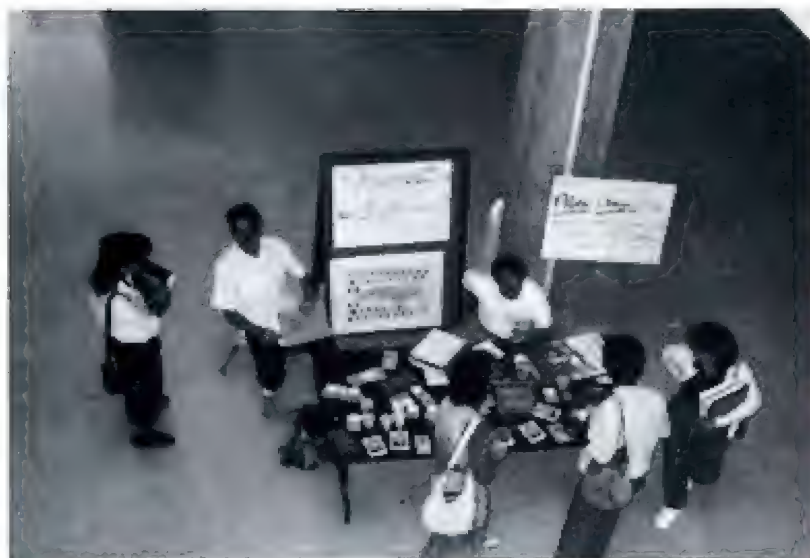

Recruiting begins for Alpha-Omega.

Alpha-Omega

Alpha-Omega is a new organization that exists to focus on Christ and encourages Christian living. Dr. Bill Greenwood, pastor of Salem Fork Baptist Church here in Dobson, is the advisor of the club, and Randall Bowman is the club's first president. Alpha-Omega, meaning the beginning and the end, provided Billy Graham's film "Caught" March 25 to reach students who want to know more about Christ and his teachings.

Phi Theta Kappa

Phi Theta Kappa is an honor fraternity that has recognized intellectual achievement by American 2-year college students for the past 70 years. Its purpose is to promote scholarship, develop leadership and service, and cultivate fellowship among its members. To be eligible for membership in the fraternity, a student must complete at least one term of 2-year college work with a minimum grade point average of 3.5 on a 4.0 scale. In addition a student must maintain a 3.5 average, possess qualities of citizenship, and be judged of good moral character.

A Phi Theta Kappa chapter is being organized by Chris Yopp at SCC and will begin with a group of 10 students. Once the chapter is chartered, it will grow in proportion to the number of interested scholars on campus.

French and Spanish

"Bonjour, mes amis! Le français est pour tous!" The French Club is designed for all those who are already taking French, or are interested in taking French and want to participate in a foreign adventure!

"Hola!" Spanish is a versatile, exciting foreign language. The Spanish Club is designed for all of those who are taking Spanish as a second language. These two clubs interact throughout the year in various activities and events, such as the Foreign Language Festival and their annual Christmas party.

Advisor and instructor Mrs. Sharon Gates.

Spanish students enjoy the annual Christmas party.

High school students perform during the foreign language festival.

The after shock.

Is Mary Lee thinking about the Chippendale video?

Debbie Stevens, Dawn Niten (editor), Jane Owens, Mondee Tilley, Geneva Profit, and Sandy Stouwers go over a layout.

Wendy Frye is managing editor, assistant editor, photographer.

Jane Owens writes her fan letter to "The Boss."

Journalism

Designing, preparing, and producing a yearbook is difficult. Few students are involved, but these few represent, depict, and illustrate college life well. Their efforts are appreciated. Thanks also goes to all SCC personnel for their support and tolerance; a special thanks to Susan Pendergraft who has so graciously helped with typing and proofreading of the 1988 **Lancer**, to John Brame and Joe Maye for the use of their computers, and to Beth Brintle and Roberta Hayes.

Frances Owen, clubs editor, designs pages on the computer for the yearbook.

Bart Massey is thinking about his next assignment.

Pam Ring, advisor

Mondee Tilley really goes all out for the Halloween contest.

Features editor Jane Owens and newspaper editor Mondee Tilley put together a copy of the **Squire's Voice**.

Law Enforcement Organization

First Row (L-R): Paige Snow, Secretary; Dianna O'Neal, vice-president; Carolyn Fletcher, treasurer; Second Row (L-R): Mitch Whitener, president; David Jones, parliamentarian.

"So this is what they mean by a bar exam."

First Row (L-R): Mitch Whitener, Dianna O'Neal, Carolyn Fletcher, Billy McCraw; Second Row (L-R): Gary Golding, Carol Thomas, Lisa Cooke, Rhonda McCreary, Tina Lyons, Lori Simmons, Jimmy Caves, Steven Graves; Third Row (L-R): Dennis Barnes, Johnny Nunn, Tony Boles, Mark Johnson. Not pictured: David Scales, Timmy Snow, Dawn Nifen.

All of the members of LEO (Lambda Epsilon Omega) are members of the N.C. Association of Criminal Justice Educators. The primary objectives of the professionalism of personnel in Criminal Justice agencies is to attract high quality pre-service students into the field of Criminal Justice, and to stimulate academic achievement among Criminal Justice Agencies.

Benny and students perform Christmas carols.

Chorus

The SCC Chorus is composed of individuals of varying ages who enjoy singing and performing throughout the year at various churches, civic clubs, and organizations in the area. Day and night choral groups combine for Christmas and spring concerts; and members receive transferrable credit while developing their voices and musical talents. The Chorus serves as a primary source of public relations and recruitment for the college and community.

Benny Younger, director and instructor

Student Government Association

"Dr. Death"

"Did you hear the one about the ape, the hippie, the clown, the California raisin, and the bag lady?"

"I always get nervous around exam time."

"Here, let me help you."

"How long do we have to smile?"

The Student Government Association (SGA) is an organization which helps in the establishment of rule and regulations on campus. Training for members will help them in any field they choose. They learn a variety of responsibilities from leadership to getting along with others. SGA generally sponsors the annual Christmas Dance and Student Appreciation Day; the latter is held in late May.

Above: "Ha! Ha! I beat you."

CLASSES AND

CURRICULUM

Flower Arrangement

Sewing

Quilting

Surry Community College is committed to the continuing education of the adult citizens of its area of service. To fulfill this commitment, the college offers a variety of courses, conferences, workshops, and exhibits designed to meet the adult educational needs.

Through the Continuing Education Division, students find opportunities to re-train and update themselves in employment, to expand knowledge in general education, and to develop creativity in the fine arts.

Other courses are provided in extension centers in the various communities of Yadkin and Surry Counties. New classes may be formed whenever a sufficient number of persons show interest in a particular area of study.

In extenuating circumstances, and upon approval by public school officials, persons under the age of eighteen may be admitted. North Carolina adults age 65 and older may register for classes in the Continuing Education Division free of charge.

Knitting/Crocheting & Sewing

CONTINUING EDUCATION

Continuing Education programs are offered in the following areas of Study:

Family Life
Photography
Nurse Improvement
Teacher Renewal
Furniture Refinishing
Arts and Crafts
Library Administration

Personal Care
Real Estate
Law Enforcement
Creative Arts
Knitting and Sewing
Firemanship Education

Adult High School and Basic Education
Business and Industrial Programs
Professional In-Service Programs
Vocational In-Service Education
Human Resources Development

J.T. Henson
Criminal Justice Instructor

Law Enforcement/Criminal Justice

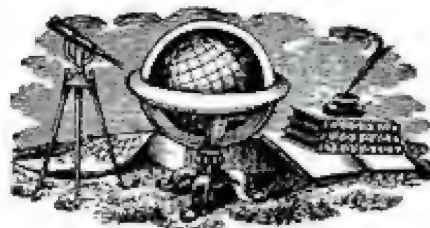

Police Science

One usually acquires basic knowledge of interpersonal communications, law, psychology, and sociology in the criminal justice curriculum. It is designed to consist of options in corrections and law enforcement services. Students may also decide to specialize in areas of confinement facility, administration, correctional law, counseling, probation—parole services, or rehabilitation.

"If liberty is to flourish from this time on, many must make the rule of law in world, in regional, and in community affairs his preoccupation.

—William O. Douglas

AND SPECIAL INTERESTS

Cosmetology

Held at the Northwestern Beauty School in Mt. Airy, cosmetology classes are designed to instruct students on hygiene, good grooming, visual poise, personality development, draping, shampooing, manicuring, scalp, and hair.

Annually, the Elkin and Mount Airy beauty schools combine talents and efforts to present a fashion show for the public. This year's show was held February 7 at the Andy Griffith Playhouse.

Safety and First Aid

This course consists of principles and practices that can be applied to emergency first aid; studies of safety procedures and techniques are related to vocational training.

Step 1: Assessment

In the following series of photographs, safety and first-aid class members show the proper procedure for applying a splint to a broken arm. Step 1: The victim's injury is determined and splints are applied to the fractured area. Step 2: The splint is secured with wrappings into position. Step 3: The bandage is examined and a sling is placed around the arm.

Other class members observe the proper techniques of first-aid.

Step 2: Application

Step 3: The Finished Product

Plumbing

The Plumbing Fundamentals course is a study of plumbing tools, piping materials and fittings, plumbing system designs, pipe and fitting installations, fixtures, and water supply systems. This field of study helps students become tradesmen, foremen, or general supervisors.

Welding

This course gives students an understanding of the principles, methods, techniques, and skills for successful employment in welding and metal industry.

Part-time instructor John Kelly lectures on blueprint reading.

Carpentry

The cabinetmaking and carpentry curriculum acquaints students with vocational skills. Student study all aspects of residential structures, including materials, tools, framing, finishing and roofing construction. The program also offers on-the-job training.

"Are the tools without, which the carpenter puts forth his hands to, or are they and all the carpentry within himself; and would not he not smile at the notion that chest or house is more than he?"

—Cyrus A. Bartol

Auto Mechanics/Machine Shop/Body Repair

Auto mechanical courses include Automotive Electronic/Electrical Systems; Front Suspension, Alignment, and Power Steering; Diesel Engines; Automotive Body Repair; Braking Systems; Small Engine Repair; Metal Finishing and Painting; and Auto Accessories.

The automotive body repair classes offered to help develop training skills in the field of equipment and materials in the mechanics trade. Students study the construction of the auto body and the techniques of repair, rebuilding, and refinishing cars.

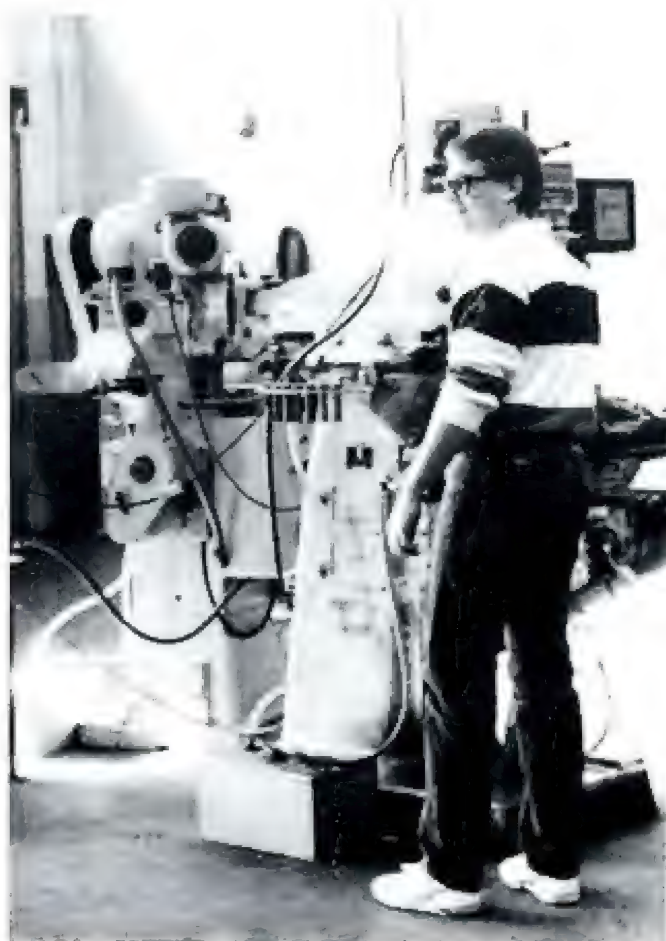

Victor Simmons shows his expertise in using the vertical milling machine.

"The automobile is a symbol of our new technological era as the cowboy's horse was in the rugged frontier class."

—Jean Rosenbaum

Barry Whitaker takes a turn at the vertical milling machine.

Marnie Powell demonstrates the surface grinder.

A view from the right ...

... And now a look at the left side of the same engine. It really works, too!

Norma Draughn, ESHS

Adult Basic Education

ABE classes are available to adults who wish to learn to read and write or who want to prepare for entry into the High School Completion Program. Reading, writing, math, history, and English are emphasized. ABE classes are located in several communities such as those pictured here at ESHS, NSHS, and Lowgap Elementary. Area industries and businesses (Renfro Corp., Adams-Millis, Brown-Wooten Mills, and Chatham Manufacturing) also participate in the ABE program. Students who complete the high school program may take the GED to acquire the Certificate of High School Equivalency.

Carl Hayes, Lowgap Elementary

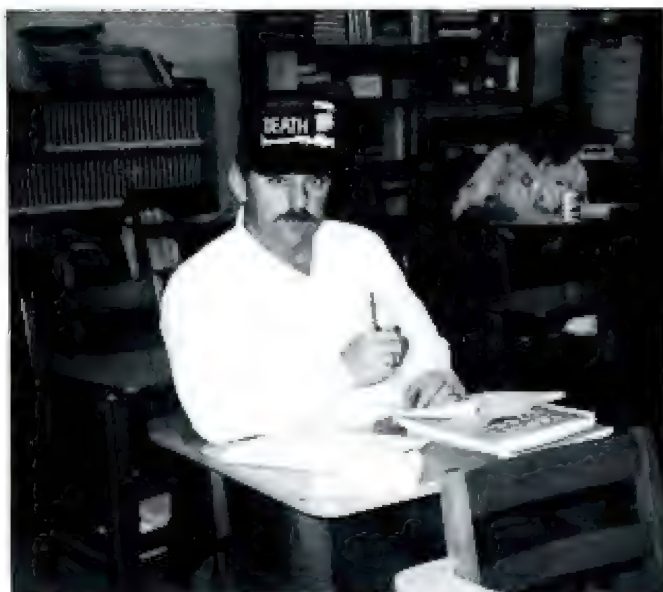

"Education is a companion which no misfortune can depress, no crime can destroy, no enemy can alienate, no despotism can enslave. At home a friend, abroad an introduction, in solitude a solace, and in society an ornament. It chastens vice, it guides virtue, it gives, at once, grace and government to genius. Without it, what is man? A splendid slave, a reasoning savage."

—Joseph Addison

Rebecca Smith, NSHS

Art

Art History, Commercial Art, Drawing, Arts and Crafts, Ceramics, Painting with Colors, and Portrait Painting enable students to express themselves on paper. The purpose of the art program is to enhance a student's awareness of history, technique, and professional ideas.

"Art is a human activity consisting in this, that one man consciously, by means of certain external signs, hands on to others feelings he has lived through, and that other people are infected by these feelings, and also experience them."

—Leo Tolstoy

THE FINE ARTS

Creative Writing Class, Fall 1987-88

Don Barnes, Drama Instructor

Dance/Drama/Music

"The place of dance is within the heart."

—Tom Robbins

"To me it seems as if when God conceived the world, that was Poetry; He formed it and that was Sculpture; He colored it, and that was Painting; He peopled it with living beings, and that was the grand, divine, eternal Drama."

*—Charlotte Saunders
Cushman*

This field of study includes an Introduction to Music, the History of Music, Chorus, Piano, and Guitar. An important emphasis is placed on scales, key signature, chords, and writing music.

"Music has a power of forming the character, and should therefore be introduced into the education of the young."

—Aristotle

Mathematics

The math curriculum offers a variety of courses (including Remedial and College Mathematics, Algebra, Trigonometry, Geometry, Calculus, Technical Math, Criminal Justice Math, Digital Computer Math, Electrical Math, and Building Trades Math) which, together or separately, develop mathematical and analytical skills.

"The way to enable a student to apprehend the instrumental value of arithmetic is not to lecture him on the benefit it will be to him in some remote and uncertain future, but to let him discover that success in something he is interested in doing depends on (the) ability to use numbers."

—John Dewey

Agriculture

The agriculture program provides a knowledge of functions that a manager needs and supplies an introduction to principles used in making decisions and adjusting to changing conditions in the agricultural environment.

"The first farmer was the first man, and all historic nobility rests on possession and use of land."

—Ralph Waldo Emerson

Business

A survey of the business world (with attention devoted to the structures of various types of business organizations and managements) is taught in the business curriculum. Emphasis is also placed on speed and accuracy.

"The art of leading, in operations large and small, is the art of dealing with humanity, of working diligently on behalf of men, of being sympathetic with them, but equally, of insisting that they make a square facing toward their own problems.

—S.L.A. Marshall

Computer Science

Computer science and electronic data processing provide opportunities for students to familiarize themselves with an Introduction to Computer Science, Computer Science Programming, PASCAL, FORTRAN, COBOL I AND II, Computer Science Systems Analysis, Computerized Accounting and Data Processing Applications.

"People never remember but the computer never forgets."

—Marshal McLuhan

Engineering

Basic descriptive geometry, systematic solutions, and analysis of the relationships of points, lines, and planes in space, developments, and intersections are theories reviewed in the engineering program. One such course is Graphics for engineers which specifies the instruction in the use of drafting instruments, freehand drawing, and lettering.

"I want to emphasize in the great concentration which we now place upon scientists and engineers how much we still need the men and women educated in the liberal tradition, willing to take the long look, undisturbed by prejudices and slogans of the moment, who attempt to make an honest judgment on difficult events."

—John F. Kennedy

Electronics

A study of alternating voltage and current magnetism, electromagnetic induction, Lenz Law, Faraday's Law, AC component, and circuit analysis are a big portion of the electronic curriculum. Courses are designed to develop competent technicians to work as engineering assistants or as liaisons between engineers and craft persons.

Drafting

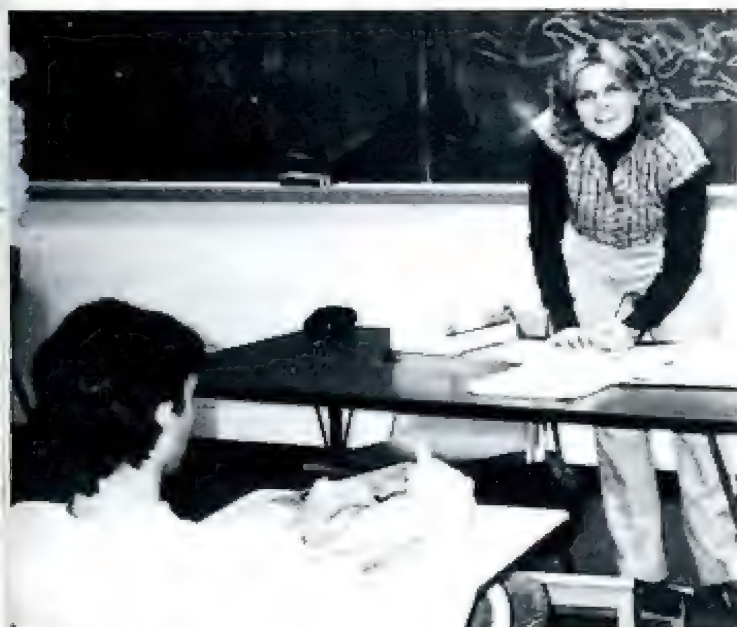

The drafting student is first introduced to drawing principles and practices used in drafting objects in graphic language. The curriculum also offers classes in Technical Electronics Drafting, Architectural Drafting, Dimensioning and Tolerancing.

LANGUAGES

Spanish

Courses in Spanish include an introduction with a modern audio-lingual approach. Emphasis on listening and speaking comes first, followed by reading and writing.

English

Enrichment of grammar, punctuation, and sentence and paragraph building are the skills provided by the English curriculum. Classes in the curriculum include levels of grammar in English 101, 102, 103. Journalism Report Writing, Survey of American and Western World Literature, and Communication Skills.

"English is the most modern of the great languages, the most widely spoken and the most international . . . Its swiftness and transparent accuracy of expression, and especially the fact that it has shed most of the old grammatical forms which time has rendered useless and scarcely intelligible, have made English a model, pointing the way which must be followed in building the Interlanguage."

—Sylvia Pankhurst

French

A modern approach to language, people, and the country of France are introduced. Students use vocabulary studies to become familiar with the language.

Economics

Capitalism, Socialism, and Communism emphasizing American Capitalism are the core of the economic curriculum. Students learn the importance of costs, prices, resources management, money, and banking.

"I have been gradually coming under the conviction, disturbing for a professional theorist, that there is no such thing as economics."

—Kenneth E. Boulding

Geography

The geography course concentrates on the earth's astronomical relations. Factors of weather, climate, physical features and changes in land formations are also studied. Production, distribution, consumption and conservation of the major world resources are of interest to students enrolled in this course.

Political Science

This course concerns the national government, its organization, function, power, and civil rights. It is also a course in helping students acquire skills which will allow them to effectively assume positions of leadership with occupational, social, cultural, and political organizations.

History

The sequence course in Western Civilizations, beginning with History 101, is a study of the western society from 8000 B.C. to the present. Topics include the Classical Greek and Roman Worlds, The Reformation, the emergence of the modern national state, the rises of commercial capitalism the Industrial Revolution, the French Revolution, liberalism, commercialism the alliance system, imperialism World War I and its aftermath, and the ideologies of the twentieth century.

"History is not life. But since only life makes history the union of the two is obvious."

—Louis D. Brandeis

NATURAL SCIENCES Religion

Genealogy

The SCC genealogy class is a study of methods and sources used in researching family history. Students learn how to use primary sources such as census records, court records, deeds, and wills, as well as secondary sources such as census indexes, deed, will, and court record abstracts, and published family histories. Instruction consists of lectures, discussions, and "laboratory" work in the local history and genealogy collection in the library, including microfilm material, and in the Surry County Register of Deeds office in Dobson. A highlight of each class is a Saturday visit to the North Carolina Department of Archives and History in Raleigh.

This is a field of study which includes both Old and New Testament teachings. Courses are designed to introduce students to the history, setting, purpose, and major ideas of this literature. A comparative study of the major religions of the world, both ancient and modern, are also examined.

"The religious element in public education is everything that promotes faith in the higher values of life. Religion is not something apart but a continuous part of our experience."

—Conrad Henry Moehlman

Philosophy

This course involves a study of problems dealing with freedom of will, perception of evil, right and wrong, and what these topics mean to man in his everyday life.

"In philosophy, it is not the attainment of the goal that matters, it is the things that are met with by the way."

—Havelock Ellis

Sociology

This course is a study of society and culture and how we become human beings. The importance of problems in class, racial, ethnic groups, and women are emphasized. The problems of social change, population problems, urbanization, and collective behavior are also discussed.

"The illumination of experience."
—Paul Starr

Psychology

Psychology involves studying and learning the purpose of practical skills that can be used in a classroom. An introduction of psychology (including prenatal and postnatal care, personality, self-actualization, and studying ego and personalities) is all-important to this class.

"Every new adjustment is a crisis of self-esteem."

—Eric Hoffer

Physical Education

Physical education and fitness are taught through the teachings of fundamentals, techniques, and rules of play. Classes vary in length and capacity, and include basketball, volleyball, tennis, table tennis, and aerobics.

"I should have performed the office of but half a friend were I to confine myself to the improvement of the mind only. Knowledge indeed is a desirable, a lovely possession, but I do not scruple to say that health is more so. It is of little consequence to store the mind with science if the body be permitted to become debilitated."

—Thomas Jefferson

Nursing

The concept of proper health care is provided in the nursing curriculum. Students learn to administer medications, communicate with doctors and patients, and to work in the surroundings of mental health, childcare, elderly (such as rest homes), and maternity care. Students also participate in clinical rotations to obtain hands-on knowledge and experience.

"In nothing do men [and women] more nearly approach the gods than giving health to [other] men [and women]."

—Cicero

Biology

Physical Science

"The aim of science is to seek the simplest explanation of complex facts. We are apt to fall into the error of thinking the facts are simple because simplicity is the goal of our quest. The guiding motto in the life of every natural philosopher should be, 'Seek simplicity and distrust it.'"

—Alfred North Whitehead

Biology courses at SCC offer an introduction to the fundamental concept of biology, a study of the body organization and how it functions.

"Science, like life, feeds on its own decay. New facts burst old rules; then newly divined conceptions bind old and new together into a reconciling law."

—William James

Chemistry

Chemistry courses provide knowledge of basic terminology, physical states, fundamental concepts for atoms and molecules, nomenclature and stoichiometry.

"In the arts of life man invents nothing, but in the arts of death he out does Nature herself, and produces by chemistry and machinery all the slaughter or plague, pestilence, and famine."

—George Bernard Shaw

Physics

This field of study is application-oriented for technicians. The course in physics involves the properties of matter and heat, electricity, light and sound, and applied science.

PHYSICAL SCIENCES

FUN AND

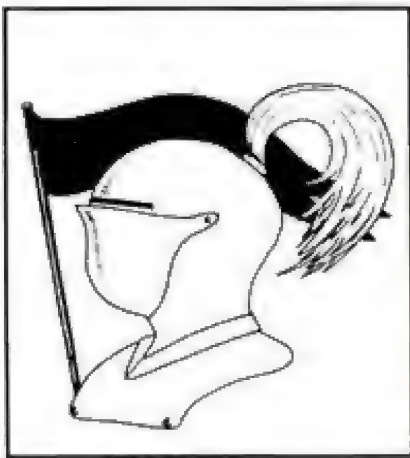

GAMES

Intramural Vollebyall

The serve

The return

Intramural Basketball

The tip-off

Let's wrap this up.

Up, up, in!

Got something in your eye?

Hey, look up.

Intercollegiate Golf

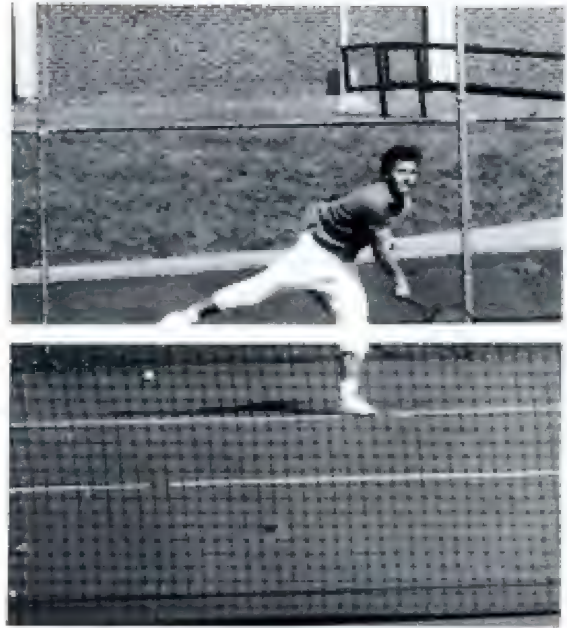

1987-88 golf team (L to R): Todd Nichols, Tony Bolds, Brian Waller, Burton Christie, Stew Roberts, and Darren Smith

and Tennis at SCC

1987-88 tennis team (L to R): First row: Tommy Branch, Jody Roteniger, and Terry Lyon; second row: Mitch Whitener, Coach Mike McHone, and Joe Billings.

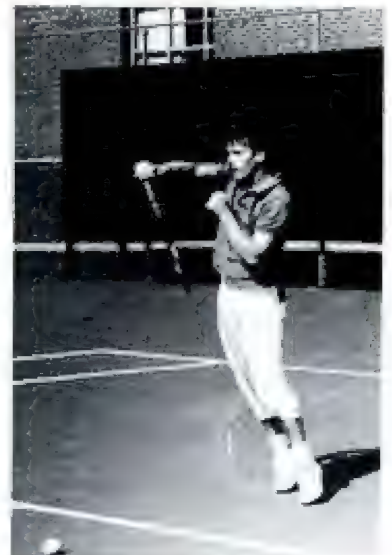

No; stop! Stop!

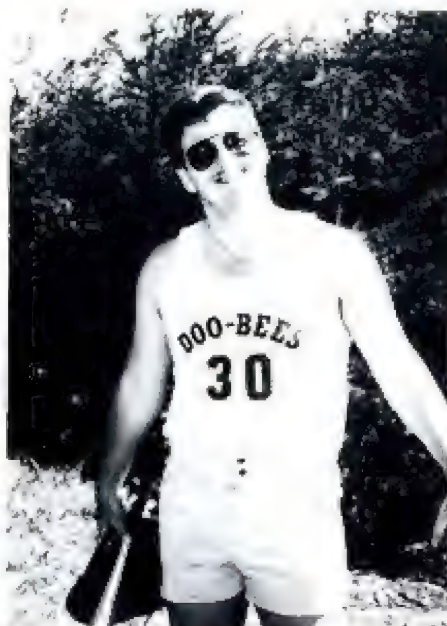

Did you see that block?

What suave poise.

Gosh, I hate sitting on the bench, don't you?

April brings flowers and showers, but the spring also brings intramural softball. For some strange reason, warm weather brings out the athlete in most. Just ask the Doo-Bees, Bohemian Blue-Jays, Bogies, Just-Us, or the faculty teams.

HACKY-SACK: A FAVORITE SPORT

Now where did that thing go?

Hacky-sack is a favorite sport at SCC. It's a game that can be played just about anywhere at any time. The game requires coordination, skill, and lots of practice. Those are the traits that many students at SCC possess.

Colors of Life: The Colors of Search

*Life is a beach—
With a rainbow—
An ocean to cross,
A rainbow on the horizon.
To sail the blue
That seems to have no end
Is more than a challenge;
It is a necessity.*

*The sun and waves beat me,
Yet I am undefeated.
Fatigued, worn—
My brain hurts;
Sea creatures swarm about me;
Yet forward I go.*

*I am weathered
As the elements enfold me,
But I am more alive
Than many others.*

*And those who sold their souls
For bed or bread or heaven
Laugh at the ocean traveler,
That paint of rainbows gray,
That paint of sunset sight,
That paint of dawn's light.*

*And those who sold now
For gold or silver or power
Or for the search for pure specter
For the clean fresh waters
For the clean knowledge
All that is of any worth,
All that is worth owning.*
